Type of a training module (mandatory/optional)	Mandatory
Year of studies	6
Semester	11, 12
Type of studies	full-time long cycle

	·
Name and surname of the module	
coordinator or the person/people	
conducting the module	
Name and surname of the	
person/people examining or giving	
credit in the case this is not the person	
conducting a given module	
Type of classes	Clinical practicals
Type of classes	Chinical practicals
Preliminary and additional requirements	Getting credits for Psychiatry module, getting credits for
, ,	Psychotherapy module
Type and number of class hours	Clinical practicals in pairs - 60 hours
requiring direct participation of an	Chinear praedicals in pants of nours
academic staff member and students	2 weeks
when there are such classes in a given	2 weeks
module	
Number of ECTS score for the module	4 points
Number of EC13 score for the module	+ points
ECTS credit allocation	Attendance in mandatory classes - 60 hours
	Preparation to practicals - 30 hours
	Preparation for the final exam - 20 hours
	Total 110 hours of student's work
	Total 110 Hours of Staucht 5 Work
Teaching methods used	Clinical practicals - practical clinical study
reaching methods used	Chinical practicals - practical chinical study
The forms and anaditions for massing the	Madula analisa analisa fulfillia a bla fallaccia analisia ana
The form and conditions for passing the	Module passing requires fulfilling the following conditions:
